

We strive to...

serve our community and its children by creating an environment where life long learning is valued, excellence is expected and improvement is continuous.

We will do this by...

meeting the needs of each student and providing the understanding, encouragement, support, knowledge and skills each require to meet or exceed the district's high expectations and rigorous academic expectations.

In doing so...

we will prepare every student for postsecondary education, career and lifelong economic, social, and civic success.
